FID (Flexible Instruction Days / Remote Days)

PDE approved Laurel Highlands to use no more than 5 Flexible Instruction Days for inclement weather including snow days.

HOW IT WORKS:

- Teachers will create 5 lessons/assignments in advance
- Students will be given those paper lessons in school on Tues., October 11th
- Students will keep those paper lessons at home until the district calls a FID due to inclement weather.
- Students will complete one lesson/assignment on the day of the FID and return the completed lesson/assignment on the next day they return to school.
 - Students will not have to make up school day because they completed the lesson/assignment at home. If students do not complete the assignment, they will be marked absent.
